Cypriots are known for their friendliness. Being true to the country's traditions and culture, our communal gym and pool are accessible to all residents and our apartments are built to promote such interactions.

Don't be afraid to get to know your neighbors. In fact, socializing is very much encouraged.

Remember, good company cultivates the soul, especially when you're already in paradise!

Our architectural design allows nature to surround you and engulf your senses.

The calming waters and green foliage stimulate your mental and physical wellbeing, an effect enhanced by the minimalistic tones of our blocks' reflective surfaces and soothing skyline.

With sublime restorative views of the sea, the pool, or a private garden-most of our apartments look out on all 3 at once!
